A VOTE for J. Scott Wolff for Congress is an expression of belief in Democratic rule; in the Jeffersonian idea of government; in the ideals and aspirations which have led this great Republic since its birth.

If you are opposed to the ship subsidy steal; if you are against National Centralization; if you condemn Newberryism; if you believe in the principles taught by the Fathers of the Republic—vote for J. Scott Wolff, Democratic nominee for Congress. He is one of the people and believes in the people and will serve them faithfully.

His Misfit, Gov. Hyde, is very anxious to capture the Supreme Court, that he may work out his partisan purposes without judicial let or hindrance. You know he tried to upset the referendum and substitute his own sweet will for the voice of the people and was stopped by the Court. It is common sense prevail he will be taught a salutary lesson the coming November 7th. Let every Democrat, for the common good, register his vote that date.

THREE days after vetoing the soldier bonus bill because it would increase taxation, and be "governmental folly," President Harding announced that he would call Congress in special session Nov. 15 to pass the ship subsidy bill, which contemplates an appropriation of the people's money of seventy-five million dollars a year for ten years, as a gift, and the lending of a hundred and twenty-five million dollars at two per cent to private interests. In addition to paying the new ship owners, the ships would be free from taxation. If the Democrats control the next House the only possibility of passing this wicked measure is by the extra session of the present Congress, for no Democrat will stand for this plundering of the treasury.—Salem Post.

UNDER Gov. Gardner the appropriations for the conduct and maintenance of the various State departments and offices was \$1,970,925.00. This for the twenty months ending his term of office. The cost for the same purposes under Gov. Hyde for the twenty months the State has been under Republican rule is \$2,882,713.10. Nearly one million dollars extra we are paying for g. o. p. rule! And all the time the expert figurers are trying to show that taxes are being reduced! Decreased income; increased outgo! And the State growing richer! This calls to mind the old story of the clothing merchant who always insisted that he was selling his goods below cost. "But," said a friend, "how can you afford to do that?" "O, my dear sir, I sell so many of them!"

I REPRODUCE this from the Dunklin County News and ask its careful consideration by Iron County Democrats as well: "Are you Democrats of Dunklin County satisfied with the present Republican State and National

administration? Do you approve of the high tax program of the State administration? of the gerrymander by which the redistricting of the State will insure future Republican control? of the centralization of State government, thereby having your local affairs controlled and regulated from Jefferson City by State officials and boards? Are you in favor of the county unit bill, which the present Republican administration fostered and attempted to thrust upon the people of the state without their consent, which would take the control of your schools out of the hands of your local school boards and put them under the control of a county board, and a county superintendent whom the board can elect without consulting you and regardless of your wishes? Do you want these changes and others as iniquitous which could be mentioned? If so all you have to do is to vote the Republican ticket in November or stay at home and not vote at all. Either action will insure the same result."

Amendment No. 3 Must Be Carried.

The most important issue before the people of Missouri at this time in connection with their big road building program is the adoption of Constitutional Amendment No. 3 providing for a fund to maintain the state highways. This provision was accidentally omitted from the first Amendment No. 6 adopted in 1920, and the error must be corrected on election day, Nov. 7, by passing No. 3. Without this Amendment all of the auto license taxes are set aside to pay the bonds and interest with nothing to maintain the roads. By adopting No. 3 the auto fees are set aside to retire the bonds, pay the interest, maintain the state highway department and maintain the state roads.

If Amendment No. 3 is defeated it will be up to the Legislature to levy a direct property tax to maintain the roads. If this be not done then the roads wear out and Missouri can get no more Federal Aid. It is a crisis in our road program. Every voter must understand the importance of this matter and be sure to vote for No. 3.

In memory of C. W. Rennie, who departed this life, Graniteville, Mo., October 17, 1921.

God's golden sun is shining
Upon our father's grave;
The one we loved so dearly,
And tried so hard to save.

And we lost our father,
We lost our dearest pal;
We love you and we miss you,
And forever shall.

So rest in peace, dear father,
You're safe in heaven's bower,
The day that we shall meet you
Grows nearer every hour.

Defeat of G. O. P. on Tariff Forecasts in Other Tariff Bills.

Reciting the political effects of the five tariff laws passed prior to the Fordney act, the Washington Star, orthodox Republican, asked whether the Fordney law will cost the Repub-

licans the election this year and the elections two years hence. The facts presented by the Star editorial, which is as follows, answers the question in the affirmative:

"The Fordney tariff law is the sixth enactment of that kind in thirty-two years. This is the record:

"(1) The McKinley law. Passed in the latter part of 1890. Gave place to the Gorman-Wilson law late in the summer of 1894. Was in operation about four years. Cost the Republicans the House in 1896, and two years later they lost both the Congress and the presidency.

"(2) The Gorman-Wilson law. Passed in the late summer of 1894. Gave place to the Dingley law in 1897. Was in operation about three years. Cost the Democrats the House in 1894, and two years later they lost both the Congress and the presidency.

"(3) The Dingley law. Passed in the fall of 1897. Gave place to the Payne-Aldrich law in 1909. Was in operation about thirteen years, during all of which time the Republicans controlled both Congress and the presidency.

"(4) The Payne-Aldrich law. Passed in 1909. Gave place to the Underwood law in 1913. Cost the Republicans the House in 1910, and two years later they lost both the Congress and the presidency.

"(5) The Underwood law. Passed in 1913. The Democrats won in the next year's congressional elections, and again in 1916 in both the congressional and the presidential elections. Has been in operation nine years.

"(6) The Fordney law. Will it cost the Republicans the elections this year and the elections two years hence?"

President Silent on Dad's Endorsement of Democratic Candidate.

On the day the news was published that Dr. George T. Harding, father of President Harding, had declared himself in favor of the election of Clyde Herring, Democratic candidate for United States Senator from Iowa, the President cancelled his conference with the Washington newspaper correspondents which fell upon that date and thereby escaped possible embarrassment of being questioned on his father's now famous pronouncement. He did not, of course, give this as a reason. If a logical reason were looked for it can be said that it was great golfing weather that day.

In the absence of any comment by the President, it may be assumed that Dr. Harding voiced the sentiment of a considerable element in the Republican party in Washington as well as in Iowa, when he said:

"Mr. Herring (the Democratic candidate) is a gentleman. The man running against him is a Socialist. I don't want to see a Socialist in Washington causing trouble. My boy has enough bolshevik trouble here now. I have my sleeves rolled up for Mr. Herring."

Following the announcement of Dr. Harding, an assembly of 200 stalwart Republicans of Iowa organized a movement in behalf of Mr. Herring, the Democratic candidate. Neither in the case of Dr. Harding nor of the Republicans in revolt has there been any intervention on the part of the administration.
